Robert,

I am on travel, I tried to call you back yesterday, but must of missed you, I turned off my phone when I got to the public meeting. Tetra Tech is not the contractor for EPA HQS, they use CSC--and if they needed information they would ask me and not go through an information request. Remember that the draft HRS is confidential and is not releasable. As is the draft ESI until Bret reviews and signs off on it. I will be enroute most of the day, but you should be able to reach me around 10:00 on my cell 214-680-9776.

Subject: West County Road 112 Information Request

Brenda,

talking with TCEQ today and Robert Musick mentioned that they had received an information request from Tetra Tech concerning correspondence on the West County Road site. Robert asked me if this originated from EPA (assuming Tetra Tech was under contract). I said no, the request was not from Region 6 but couldn't answer for HQ since Tetra Tech does support work for other offices. Is the Tetra Tech request related to review of the site package - I think Robert would like to hear back from you on this. Thanks.
